

PET MO – Columbia, 1908 Heriford Rd., Columbia, MO 65202
www.giftofmobility.org 573-886-7877

One of our newer distribution partners, Alaska Sudan Medical Project, just sent us another wonderful report from South Sudan. We have sent two shipments over the last two

years totaling 30 PETs. We are able to ship PETs to the Kansas City, MO, area two hours away to include in their mission shipments. This report came from one of their volunteers who was working there and assembling PETs as part of his work.

Child PET enables young South Sudan boy to get around without crawling. January 2012

“Hello all;

Attached are some pictures of us assembling one of the PET units (the wooden tri-cycle wheelchairs); and one of the "child-sized" ones in use.....

The child-sized one was the first unit assembled the day before, and the lil' shaver drove into the work-yard while Thai and I were assembling another one....good comedy.

The REALLY small kid in the back-seat is the driver's young brother, I believe....the driver has been crawling on his hands & knees begging in the village since I arrived early November....Todd, Jack, etc., I imagine you re-call him, he was a striking site....

If someone could forward these pics on to the PET people (I don't have their emails), I'm sure they'll appreciate seeing them. Thanks all, take care, -DK”

Yes, we greatly appreciate these reports to share with all of our supporters. There are many who make PET work in many countries around the world.
