

150 Men, Women and Children Are Changed With Mobility Carts in Kenya

June 2017: On Saturday our PFC staff in partnership with the Kiambu County Disability Network and his Excellency William Kabogo Gitau Governor Kiambu County distributed 150 Mobility Carts. There really is no way to describe what it is like to give the gift of mobility to 150 men, women and children changing their lives and the lives of their families. These are people who didn't have other options and so they crawled on the ground or were carried on the back of their caregiver.

It has taken several months of planning and partnering but today it all paid off with the successful distribution of 150 Mobility Carts in partnership with the Kiambu County Disability Network and the Kiambu County Governor's office. The Governor loves the carts and wants to talk with PFC about how the carts can be made in Kenya.

Without the partnering of Mobility Worldwide MO - Columbia and a partner donor these 150 carts would not have been in Kenya! It takes many hours of volunteer time to make the carts and to raise the funds to purchase all the material to make the carts. PFC is very grateful and so are the recipients!

Blessings, Connie Cheren, Founder, Partners For Care
