

These PETs were shipped and distributed by American Leprosy Mission. ALM shipped 84 PETs made possible by our first annual Walk & Roll for PET fundraiser across MO in Oct. 2005. They will be distributed in Angola, Africa. These three were distributed in Dondi and Kalukembe in June 2006.

Dona Julieta received a PET in June. She lives in Dondi, Angola. IECA (Angolan Evangelical Congregational Church) has been involved there since the 1940s...

This photo depicts Dona Julieta learning about the controls of her PET...

There was a village ceremony honoring her. The mat in the back box is to symbolize "taking up your mat and pedaling"...

Best,

Jim Oehrig

Director for Programme Development
American Leprosy Missions

(Notice parts of fingers and toes missing from the affects of leprosy. They are able to palm the PET handles but not grip a wheelchair wheel.)

Would you like to help send more PET mobility vehicles to persons with Leprosy and others in great need? Please send your gift to:
