The following email report was forwarded from Mark Richard, Director of Operations for Hope Haven International Ministries. HHIM has been our greatest, largest distributor of PETs from various PET Affiliates across the US. They have distributed mobility devices in over 100 countries, and the main reason PET has gotten into 69 countries so far. We are so grateful for their partnership, dedication to help those in need of mobility, and for the terrific process and expertise in which they do distributions. The photos illustrate what Mark has said about the desire of PET recipients to earn a living. This man is a clever entrepreneur.

“07/31/2008 I accidentally met the guy who used PET chair for his life selling toy for children. It was great change for him when having wheelchair. I hope this will encourage all of us for helping invalid people in Viet Nam. Yours, Kieu Tuan Nha”
