

August 2014 evaluation report from Morgan Matsiga, field help and prior Columbia shop volunteer, currently living in his home country of Zimbabwe. See all pictures & evaluation in country folder.

"Hi All,

Please find attached Kudzai's PET Profile. Kudzai is a "street-musician", who likes to entertain folks, especially those who frequent "The Red Bull Bar" (his favorite hang-out place in Mabvuku). That is where I caught up with him and interview was conducted near the entrance. Stay tuned for more reports from Field. Thanks"

Evaluation form reported he had had a road accident that caused an amputation and need for a PET which he received in May 2012 – produced in Columbia, MO. He uses his PET 6 – 8 hours a day.
